

## Maintenance Procedure

### Do & Don't On CT/EAZYWood Ceiling Strips

**CTWood Ceiling Strips** are made exclusively from technologically-advanced polymer resin materials designed to provide years of low-maintenance use and enjoyment.

With proper installation and care, your new **CT/EAZYWood Ceiling Strips** will be dependable and attractive for years to come.

#### Storage

**CT/EAZYWood Ceiling Strips** should store under cover to maintain a clean surface. If stored outdoors, they must be covered with a non-translucent material.

All products should be stored flat and on a dry surface.

Stack units with banding and bottom supports aligned.

#### Handling

Although all **CT/EAZYWood Ceiling Strips** are made with low-maintenance materials, each plank's unique features require special care and handling, ensuring lasting beauty.

To maintain the beauty of **CT/EAZYWood Ceiling Strips** please follow these important guidelines when moving and working with **CT/EAZYWood Ceiling Strips**:

Never dump **CT/EAZYWood Ceiling Strips** materials when unloading.

When carrying **CT/EAZYWood Ceiling Strips**, carry on edge for better support.

Do not slide planks against each other when moving them. When removing them, lift the planks and set them down.

Do not slide tools or drag equipment across on top of the strip's surface during construction.

Keep the surface of the strips free of construction waste to prevent damages.

#### Special Handling Required

**CTWood Ceiling Strips** (particularly it's surface) are designed to mimic the look and feel of real tropical hardwoods. To best accomplish this effect, dark color accents and some variation in grain pattern are manufactured into each board. Special attention should be given to ALL the guidelines above when handling these planks to minimize scratches, nicks and grooves, and preserve the beauty of the colors.

#### Basic Cleaning Recommendations

Although **CT/EAZYWood Ceiling Strips** are low-maintenance, **CT/EAZYWood** recommends periodic cleaning to help maintain the beauty of the product. Water or normal detergent which is non-solvent based recommended. Many stains can be cleaned by water and soap, a stronger acidic-base detergent is recommended for hard-stain removal purposes; however the area/spot cleaned may be lighten.

DO NOT use any solvent-based cleaner, i.e. thinner, turpentine e.t.c. to for cleaning purposes.

#### Seasoned colour fading

**CT/EAZYWood Ceiling Strips** is subject to limited seasoned colour fading. The extent of the fading is however depends on its exposure to the natural sunlight, *i.e. if the CT/EAZYWood Ceiling Strip is fixed at the elevation which facing to west side and under direct sunlight, therefore, the extent of the colour fading will be greater e.t.c.*

#### Important Notes;

All above recommendations from **CT/EAZYWood** are served as guidelines for **CT/EAZYWood** users in general conditions only. The users are advisable to contact the manufacturer for further advice if dealing with special conditions (if any).
